Equine Center (\$500,000) - This large structure encloses the *Robbie Nutt "A Circle of Friends" Indoor Arena* and dominates our facility. It allows STAR to double up classes, host special events and keeps our riders and staff protected during inclement weather. This facility also houses the *Lenoir City Civitan Observation Room* so parents may watch classes.

Great Room (\$50,000) - The Great Room is used for Volunteer & Staff trainings, special events, serves as a classroom during inclement weather and is a meeting place for various community organizations.

Apartment (\$25,000) - The apartment allows for an on-site caretaker for our facility and equine friends.

Compost Station (\$20,000) - This structure converts a by-product (manure) into a sought after commodity (compost) that gives STAR the opportunity to reuse, recycle and offer this product as a revenue generator.

8 Acre Hay Field (\$20,000)- STAR grows & bales our own hay, reducing feed costs and making us more self sufficient.

6 acre Pasture (\$20,000) - Provides ample space for grazing, exercising and socialization of the herd. These seven pastures allow for rotation to prevent overgrazing. (Limited Availability)

Hay Storage Building (\$15,000) - This building is used to store our hay keeping it out of the weather thus retaining its nutritional value for our horses.

Stalls (\$15,000) - Well-lit, airy and handicap accessible, our 24 stalls provide a comfortable living space for each horse. (Limited Availability)

Trailer Storage Area (\$12,000) - This covered area behind the stable is used to keep our equipment out of the elements which extends the life of the trailers.

ADA Accessible Bathroom (\$9,000) - Found in the Education & Administration Building, these facilities are large enough for a care provider to assist if necessary and they are very much appreciated by staff, riders, parents and visitors!

Run In Shed (\$3,000) - These structures are found in each pasture to provide shelter for our horses. (Only 2 remaining)

When you invest in a naming opportunity - whether in honor or memory of a loved one, an organization or in your own name - you'll be providing support for the life changing program of STAR, while leaving a permanent legacy for generations to come!
